A photograph of a construction site on a rooftop. Three workers in yellow safety vests and white hard hats are visible. One worker is in the foreground, bent over and working on a concrete surface. Two other workers stand in the background near a blue Genie scissor lift. A black metal frame structure is visible on the left. A white bucket is on the ground to the right. 2 CFR 200.321 ORDENA A LOS ESTADOS* (INCLUIDO PUERTO RICO) UTILIZAR LAS MISMAS REGLAS DE ADQUISICIONES QUE UTILIZAN CON SUS FONDOS NO FEDERALES MÁS SECCIONES 321,322,323 Y 327 DE LA GUÍA UNIFORME.

Example: Differing Procurement Standards for State vs. Non-State Entities – Geographic Preference

Scenario: *The President declares a major disaster for the State of Z as the result of a hurricane, and the declaration authorizes the PA Program for all counties in the State. The hurricane damaged a building of the State Z Agency of Transportation. Following approval of a Project Worksheet to repair the damaged building, State Z Agency of Transportation procures the services of a contractor to complete the repairs to the building by following the same policies and procedures it uses for procurements from its non-federal funds when it procures construction services. The State Z Agency, when evaluating the bids for the work, uses a state statutorily imposed geographic preference and awards a contract, and the contract includes all clauses required by federal law, regulation, and executive order. Is the use of the geographic preference by State Z Agency permissible under 2 C.F.R. § 200.317?*

Answer: Yes, the use of the geographic preference is permissible under 2 C.F.R. § 200.317. The federal regulation at 2 C.F.R. § 200.317 provides, in relevant part, that a state must follow the same policies and procedures it uses for procurements from its non-federal funds when it procures property and services under a PA award. In this case, the State Z Agency of Transportation followed these procedures, which included adhering to a statutorily imposed geographic preference when evaluating the bids.⁵²
